Cemetery Regulations

1. When choosing a cemetery lot, an individual should go to the Town Selectmen's Office where lot plan and available sites can be reviewed.
2. As of 2010 the four-grave lot (16'x12') will be sold for \$600; a two-grave lot (8'x12') will be \$300; and a one-grave lot (4'x12') will be \$150.
3. Deeds for the lot(s) will be issued by the Board of Selectmen. A record of the location of each lot will be kept in the Selectmen's Office.
4. Within one year of purchase, the four corners of the lot must be monumented by owner with 6x6 blocks of granite. Monuments must be placed prior to installation of headstone and/or burial.
5. The head of each grave must be at the west end of the Cemetery. Headstones, when used, must be at the west end, with principal inscription on the east facing side.
6. Only one headstone will be permitted per lot. Flat markers installed at ground level are permitted for each additional interment/memorial as space allows.
7. All headstones must be embedded in a concrete foundation.
8. Excess additions to grave sites interfere with proper maintenance. Planted, live flowers are permitted close to the headstone. Non-biodegradable items will be removed. Plastic items will be removed. Lighting or fencing (even wood) will be removed. Planting of trees or shrubs is not permitted. Gardens are not permitted.
9. Burials are permitted only between May 1st and November 1st except at the discretion of the Selectmen. Notify the Selectmen's Office in writing the timing of an upcoming interment.
